Greatest of All

"Every one in San Antonio, Texas, says that Ackor's English Remedy is the greatest thing ever put up for coughs, colds, asthma, bronchitis, croup and consumption. I have been using it over four

years for all forms of throat and lung troubles, and have yet to come across a case where it failed. We have four little ones in our family, and neither my wife nor I have ever lost a night's sleep because of throat troubles among the children. I guess that is more than any other family can say. Ackor's English Remedy is just as effective for grown-up people as for the young. It seems to go straight to the place where the trouble lies in the throat and bronchial tubes and lungs. It soothes and heals the irritated tissues, loosens up the phlegm and mucus in the breathing passages, quiets the nerves, invigorates the constitution and stops the coughing. My advice to parents is to always keep a bottle in the house. It will be a constant safeguard against croup." (Signed) F. G. ZIMMERMAN, San Antonio, Tex.

Sold at the, too, and \$1 a bottle, throughout the United States and Canada; and in England, at 1s. 3d., 2s. 6d., 5s. 6d. If you are not satisfied after trying, return the bottle to your druggist and get your money back.

We authorize the above guarantee.

The Arizona American is the name of a newspaper to be started at Tombstone.

It is announced that work will begin within a few days on the Tombstone branch of the El Paso & Southwestern railroad.

The pumps of the Tombstone Consolidated mines are now raising over 1,600,000 gallons of water every twenty-four hours.

In Arizona the postoffices having receipts in excess of \$10,000 are: Phoenix \$26,864, Tucson \$19,700, Prescott \$13,600, Bisbee \$11,732.

C. M. Shannon is reported to have sold a piece of property in Los Angeles for \$175,000, which he purchased one year ago for \$100,000.

C. M. Shannon has purchased the Santa Rita hotel property in Tucson. The building, now partially constructed, will be completed as soon as possible. It will be the finest hotel in the old pueblo.

E. T. Babcock, a prominent cattleman, living near Fort Grant, was adjudged insane last week. Sheriff Lewis, of Cochise county, had difficulty in taking Babcock to the asylum, as he was violent at times.

The prospector who first located the Congress mines died a few days ago in the southern part of Arizona. He sold his location for \$150, and the present owners hold the same property at \$5,000,000 today.—Jerome News.

Geo. Clark, proprietor of the store and postmaster at Turner, eight miles south of Fairbank, was held up by two men on the evening of February 25. Clark was compelled to turn over what cash he had, amounting to about \$100.

The Arizona Bar association has asked the legislature to protect the widows and orphans by repealing all laws requiring the publication of probate notices. The newspapers ought to go before the legislature and ask that the widows and orphans be protected against the lawyers who demand such large fees.—Tucson Post.

J. H. Tevis, of Bowie, who is having his system of electric alarm appliances to prevent railroad accidents patented, is receiving great encouragement throughout the country, and has been the recipient of many congratulatory letters from the east. The system is thoroughly practical and will be the means of preventing many railway accidents, and will also be useful in case of train robbery by giving quick alarm to stations nearest the scene of the hold-up.

Last Saturday night, some persons evidently not well versed in the art of burglary, entered the Safford postoffice and appropriated to themselves some loose change left in the till, and by means of some instrument bored a hole in the safe door by the side of the lock, but at a depth of a half inch, coming in contact with a layer of case-hardened steel, failed to penetrate to the inner works of the lock, and had to desist, and leave with only a few dimes and nickels to compensate them for their arduous labors.—Guardian.

A new artesian well has been struck that sends forth the largest stream of water of any yet bored in the Cienega. The well has been bored upon the property of L. J. Broshears and the flow struck last Thursday at a depth of 230 feet. An estimate has been made and it was found that 160 gallons per minute is the capacity of the well. The Sissons well has increased some ten gallons per minute and now flows about 140 gallons of water per minute. Both wells are flowing into the new reservoir, and already the water is four feet in depth in several days.—Bulletin.

The department has accepted the bid of the Central Avenue Improvement company to provide quarters for the postoffice at Phoenix, the present quarters being inadequate. The new site is on Center street, north of the Adams hotel. A fine two-story building, 137½x110 feet, is to be erected, and the lessors have bound themselves to have the first floor ready for occupancy by the postoffice by July 1. The new office will have an equipment to cost \$45,000, and it will be the best appointed office in the southwest.

No decision was handed down in the Morenci justice of the peace case by the supreme court at its session February 23. Judge Kent announced that

in the opinion of the court the returns made by the chairman and clerk of the board of supervisors of Graham county was not sufficient to reach a conclusion as to the rights of Chapman, the petitioner in the certiorari proceedings. An order was made directing the board to furnish further information. The court will be in session again on March 18.

A mining suit involving the title to four claims in this district was filed in the district clerk's office today. The suit is entitled John Gleeson vs. Martin Costello, to quiet title. F. W. Goodbody is attorney for plaintiff. The claims were bought up at tax title and the same points are involved as in several other cases which are now on the calendar and to be tried at the June term. The claims in dispute are located south of this city and adjoin several claims belonging to the Consolidated Mines company and are considered quite valuable.—Tombstone Prospector.

It is said on good authority that along the Grand canyon and through Arizona will soon be building one of the grandest scenic railroad routes of the entire world. The plans for the road have already been made and the project is being backed by D. H. Moffitt, one of the richest men in Colorado, if not the entire west. The road will have but one purpose, and that will be for pleasure and sight-seekers, and if the plans are carried out, and there is not the least doubt but that they will be, one of the world's most beautiful sights will be revealed to travelers, who will not be forced to leave the cars and travel for days through the roughest of country to view the sights that have attracted thousands upon thousands of people during the past few years. The company headed by Mr. Moffitt has already been incorporated, and it is understood will connect with the Colorado Southern in the lower part of Colorado, running west down the Colorado river and the Grand canyon. It will cross the canyon twice, touching some of the most picturesque country to be found on the face of the earth.—Gazette.

A Remarkable Case.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 145 to 62 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Globe Drug Store.

Government irrigation works in India, costing \$100,000,000, irrigate about 14,000,000 acres, and the value of the products of this area often exceeds in a single year the entire cost of the works. Is there a man in America who doubts that the expenditure by our own government of as large a sum for the reclamation of our western arid lands would be a paying investment, looking at the proposition from a merely cold business standpoint?—Maxwell's Talisman.

Tragedy Averted.

"Just in the nick of time our little boy was saved," writes Mrs. W. Watkins of Pleasant City, O. "Pneumonia had played sad havoc with him and a terrible cough set in beside. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound and well." Everybody ought to know it's the only sure cure for Coughs, Colds and all Lung diseases. Guaranteed by all druggists. Price 50c and \$1. Trial bottles free.

The size of the average family in the United States is four persons and a fraction of a person, the husband in many cases being the small fraction.—Chicago Tribune.

For blind, bleeding, itching and protruding Piles, eczema, cuts, burns, bruises and all skin diseases, DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits.
